Midtown South Community Council
New York, NY 10018

Midtown South Community Council (MSCC), 501(c)(3), in New York, strives to dismantle the causes of homelessness by building an equitable, just, and sustainable social infrastructure to restore dignity, health, and home for all. MSCC envisions a city where homelessness and poverty are eradicated.

MSCC advocates and coordinates for health, housing, and community services in Midtown Manhattan. Through the Taproot website, MSCC engaged with Jim Johnson to conduct a project to strengthen and expand its services through business planning and strategy development.

MSCC has been advancing its mission for many years, and consequently, its network, outreach, and actions increased, resulting in its capabilities, sustainability, and directions needing support. In a series of workshops, Jim brainstormed MSCC's strengths, areas for improvement, clarified the organization structure, created better alignment among the management team around priorities and created a detailed action plan for moving forward. Jim's work is not only based on sound strategic and operational theory but also on his ability to recognize the organization's struggles.

The resulting smarter planning solutions included more precise actions, a diagrammatic summary of the complex work and MSCC's network, and a more concise and actionable strategic plan. The work leading to the diagrammatic summary illuminated the surprisingly complex connections and flows between MSCC and its recipients, community, service providers, and local and city officials. After seeing MSCC's work in diagrams and the process with Jim continued, it became evident where focus and future directions were needed.

Other significant outcomes include more efficient means of operationalizing the strategies into implementable steps. One example demonstrating this is the more defined committee structure resulting in defined actions and roles.

Jim added enormous value to Midtown South Community Council, its management, and the community. His friendly, professional, and empowering qualities were essential factors leading to the successful outcomes. Jim has been invited to partner with MSCC to continue his support and wise strategic development for MSCC to achieve its mission and vision.

		<i>Major Goal-</i> Development and Execution of Programs and Services					
		<i>Note-</i> This work underlies all of the above and with the help of the GM and leaders for each program we can strengthen and develop each program further.					
		<i>Note-</i> Note some programs are naturally occurring ones supporting the whole structure eg education, building communities etc.					
		<i>Major Goal-</i> Pipeline: navigation for unhoused persons					
		<i>Note-</i> The workshop tool for this is still in developmental stages, but once it is ready the next challenge will be getting it to the right people.					
		<i>Major Goal-</i> Policy Reform and Advocating					
		<i>Note-</i> including detection and amending of gaps in policy					
		<i>Note-</i> This is related to points above					
		<i>Major Goal-</i> Oversight of policies, regulations, implementations and actions affecting quality of life in the community					
		<i>Note-</i> Homes, policing, etc. Is it working well? what needs to be added /- changed					
		<i>Note-</i> Community involvement increases oversight					
		<i>Note-</i> Lack of professional development training for working with unhoused persons					
		<i>Note-</i> Related to points above and extremely important for change					
		<i>Note-</i> Actions and programs in the community affecting quality of life					
		<i>Major Goal-</i> Provide better access to housing					
		<i>Note-</i> MSCC whole premise is this. At the recent Oct 5 Homeless and Housing meeting, Joanna Fried MD, Medical Director for Manhattan Outreach Consortium noted: The conversation must always include the following:					
		<i>Note-</i> Treatment for medical and psychiatric care for people experiencing homelessness is permanent secure housing. Housing is the treatment for all of these disorders					
		<i>Major Goal-</i> Having an engaged board of directors to provide expertise and fundraising					
		<i>Note-</i> Under pinning our work is funding. Funding for salaries is a must.					
		<i>Major Goal-</i> A budget that expresses long range plan					
		<i>Major Goal-</i> Improved fundraising and grant raising skills					
		<i>Major Goal-</i> Improve marketing and messaging					
		<i>Note-</i> Define value proposition; elevator speeches					

Priority	Status	Main Text	Details / Next Step	Who	Due	Progress / Status / Notes	Link
		<i>Note-</i> This is important for now and to continue to evolve as our work progresses. It sits under both marketing and education to promote all our programs.					
		<i>Major Goal-</i> Build community (bottom up development)					
		<i>Note-</i> Create connectedness among people around the MSCC mission					
		<i>Note-</i> Create a sense of belonging among people around the MSCC mission					
		<i>Note-</i> Create opportunities for 1-1 and small group consensus building around the MSCC mission					
		<i>Major Goal-</i> Educating the public and network about needs and programs					
		<i>Major Goal-</i> Define deliverables, outputs, results; define measurables					
		<i>Major Goal-</i> General manager					
		<i>Note-</i> A general manager who is completely involved with MSCC work is needed in order to take over the miniscule work that adds time to our work day.					
		<i>Note-</i> Emails, prep for meetings, recaps are extremely important for our follow up and need to be done by a person who understands the nuances, the links and interconnections.					
		<i>Note-</i> Includes management of specific program activities					
		<i>Major Goal-</i> Office administrator					
		<i>Note-</i> Pure follow up by reading recaps, emails, calendars to ensure we action the actions we set for ourselves. John and I try but we know we miss some and need help to make sure the actions are effectively and smartly followed up.					
		<i>Major Issue-</i> Staffing					
		<i>Major Issue-</i> Finances; limitations on ability to achieve goals.					
		<i>Major Issue-</i> Guidelines for MSCC to take action					
		<i>Note-</i> When working with the agencies and groups that have authority					
		<i>Note-</i> Some of the earlier points above support this. Constant follow up and a significant Board Chair with standing in the community may be a critical factor.					
		<i>Note-</i> Capability, non conflict, non permission, credibility, authorization by Board					
		<i>Note-</i> Code of ethics					
		<i>Note-</i> Roadmap of external stakeholders to engage					
		<i>Major Issue-</i> Conflict with other group's interests, "stepping on others' toes", usurping authority					
		<i>Major Issue-</i> Major problems in communication among providers in the MSCC ecosystem					
		<i>Note-</i> Our meetings do help. But there are misconceptions about vouchers, definitions of affordable etc					
		<i>Major Issue-</i> Inconsistent cooperation and commitment within the network					
		<i>Major Issue-</i> integrated team to support all other goals					
		<i>Note-</i> Core staff, volunteers, committees, other network members					
		<i>Major Change Idea-</i> See Programs					
		<i>Major Change Idea-</i> Increase internal shared understanding and alignment					
		<i>Goal-</i> Office space / Community Hub					
		<i>Note-</i> A community hub to include hot desking for our networks would be a game changer. The hub would include a drop in café, referrals for services, clinics etc. A creative arts and performance space for story-telling, educational forums and so on					

Priority	Status	Main Text	Details / Next Step	Who	Due	Progress / Status / Notes	Link
		<i>Issue</i> - Major constraint on all activities due to limited funding					
		<i>Issue</i> - Lack of professional development training for working with unhoused persons

		Service Coordination & Delivery P4					
		<i>Goal</i> - Shared understanding / clarity for terminology

MSCC is a visionary organization with transformative ideas and processes, delivering high-quality services to bring people together to share resources, lobby for improved housing, health access and other quality of life attributes to restore dignity, and empower people to reach their full potential.

Mission: Midtown South Community Council strives to dismantle the causes of homelessness by building an equitable, just, and sustainable social infrastructure to restore dignity, health, and home for all.

Vision: Midtown South Community Council envisions a city where homelessness and poverty are eradicated.

MSCC's vision is to be achieved by:

Values/guiding principles: MSCC values dignity, collaboration, integrity, leadership, compassion, inclusivity, empowerment, and supportive qualities. MSCC reflects these values in its processes and outcomes.

Government: State, City, and Local

Donors

Partner organizations and those who collaborate with MSCC for specific projects

- Amplify MSCC's culture of openness and support and challenge misconceptions about humanity

Building Capability

- Establish goals and scope of work for each committee and volunteer programs
- Enhance networking and partner relationships

- Develop strategies for volunteers to deepen their involvement

Increasing sustainability

- Detail the immediate needs and service delivery for each program
- Integrate committees to support each other's programs
- Develop reporting methods for each level of leadership of programs and projects
- Develop further the committee structure "Programs and Projects" attached. David

Summary

- MSCC's strategic plan is a roadmap to drive its mission and vision and bring people together to share ideas to provide access to health care, develop solutions to end homelessness, and restore dignity.
